SS 23 / HOME COLLECTION **FRUIT OF DESIRE**

Based on the philosophy that design should promote good taste with a precise identity, the collection is inspired by the pillars of Benetton style: a cosmopolitan soul combined with a democratic, smart look, with knitwear, color and stripes at its core.

This collection takes it one step further, adding a passion for fruit. Indeed, Andrea Incontri focuses on the fruit theme, inviting us to question the quality - also visual - of what nourishes us, physically and culturally.

The answer?

A multitude of cherries, apples and pears of various sizes - real, artificial, organic or pop - in glossy or sorbet colors.
